Action Items + Get more apps

Peter,
What is the status of the pilot timelines? Last week you mentioned that you were waiting for Henry to send you the development timeline for the pilot, and that you were working on communication and planning documents (including timelines) for the pilot. Your assistance in expediting this information would be appreciated.

Thanks,
James

Centrally control your organizational email signatures from a simple interface.

UNPARALLELED & POWERFUL FEATURES

Exclaimer's product suite offers features that help make designing and managing email signatures a breeze.

- Suppress unpopulated contact fields from the signature.
- Test which signature will apply for a certain user.
- Make signatures come alive by adding a photo to users' signatures.
- Easy-to-use signature editor, preview the signature while you edit.
- HTML signatures added to plain text emails.
- Choose from web-hosted or embedded images.
- Create a shorter email signature for reply and forwarded emails.

Every user in your organization is guaranteed a full, professional signature on every email, no matter what device or mail client they send from.
